Dear Prospective Client:

I wholeheartedly recommend Goran Paunovic and Art Version. I have worked with Goran for over 8 years and he has always exceeded my expectations. I find him extremely easy to work with and he has the uncanny ability to take a rough sketch and concept and deliver exactly as I had it envisioned. He has never missed a deadline and communicates throughout the process. Goran has developed logos through websites and everything in between.

We will continue to use ArtVersion for years to come. We consider them an extension of our staff.

Regards,

Christy Johnson
