Re: Letter of Recommendation  
Mr. Goran Paunovic, ArtVersion

4/3/2012

To Whom It May Concern:

It is an honor to be able to write on behalf of Mr. Paunovic to recommend him for internet and web work. We undertook a major campaign this year to rebrand depression, and his ability to work within our tight deadlines, deliver unique solutions, and manage our detailed budget was no small feat. We are thrilled with the results from his web work and are thankful to have had his expertise.

Goran is always available when I have a question, and works tirelessly to make sure his clients are satisfied. He does not miss deadlines, and does everything he can to help clients save money and time. He is incredibly positive and energetic about his work.

Good luck on your new project! You could not be in better hands. I'm so thankful to have found Goran and the team at Artversion.

Sincerely,

Kathryn Goetzke, MBA
